REPUBLICAN NOMINATION
For United States Senator

HAVE YOU WEAK LUNGS?

Do colds settle on your chest or in your
bronchial tubes? Do coughs hang on, or
are you subject to throat troubles?
Such troubles should have immediate
treatment with the strengthening powers
of Scott's Emulsion to guard against
consumption which so easily follows.
Scott's Emulsion contains pure cod liver
oil which peculiarly strengthens the res-
piratory tract and improves the quality of
the blood; the glycerine in it soothes and
heals the tender membranes of the throat.
Scott's is prescribed by the best special-
ists. You can get it at any drug store.

ST. LOUIS CONVENTION NOMINATES WILSON

(Continued from page 1)

So long as the other nations of the
earth realize that the millions under
America's flag think as one, believe as
one and act as one in the face of for-
eign war, we shall be free from for-
eign intrigue, and all that it entails.

High above every other issue that
this convention offers to the Ameri-
can people we must therefore write
a vindication of American loyalty.

Our Domestic Policies.

Four years ago the people of this
country entrusted their government
to a man and to a party who prom-
ised that they would liberate the na-
tion from the chains of industrial
tyranny, who pledged themselves to
break down the barriers behind which
special privilege sat entrenched; who
engaged themselves to emancipate
business, to throw wide the gate of
lawful enterprise, to restore to the
men and women of America the paths
of progress which had been choked
and blocked by long years of invisible
government.

That promise has been kept; that
pledge has been redeemed. We must
content ourselves here with a brief
consideration of the great landmarks
which chart the change from govern-
ment for the fortunate few to an even-
handed government in the interest
of all.

The first of these is the federal
reserve act which freed the business
man and the farmer from the financial
domination of the money changers and
lifted the menace of panic from our
industrial life.

In the same spirit and with the
same motive that inspired the federal
reserve act this administration
has devoted itself to the stimulation
of American industry, agriculture and
trade through all the agencies of gov-
ernment.

New Meaning to Laws.

It has given a new meaning and
a new force to the laws restraining
big business from stifling competi-
tion.

It has created a trade commission
to afford to business generally a more
direct and prompt administration of
the laws relating to business.

It has established government rep-
resentatives throughout the world,
whose sole duty is to foster the ex-
pansion of American trade.

It has created a closer union of
economic, commercial and financial
interests between the United States
and the nations of South America.

It has declared in language that
no court and no employer can compel
his men to work for him against their
will.

It has freed the farmer from the
chains of a financial system which
was devised for business and not for
farming.

I cannot close this review of what
the present administration has accom-
plished without adverting to its cour-
ageous and statesmanlike solution of
the nation's tariff problem.

Of all the tariffs we ever enacted
this is the fairest and the best.

By the Underwood law this admin-
istration has taken the tariff out of
politics; by the new tariff commis-
sion it proposes to take politics out
of the tariff.

Under the present administration
the United States has enjoyed a won-
derful era of good business and good
times.

Floodtide of Prosperity.

The flood-tide of our prosperity has
risen to such an unprecedented height
that the only limit to trade is our
ability to make and transport the com-
modities demanded at home and
abroad.

The purchasing power of our peo-
ple is greater than that of any other
people on the globe. Never was there
as much money in our vaults as today.
Nowhere else on earth is there a
more equitable distribution of what
the energy of labor hammers into ex-
istence out of the material which cap-
ital places in its hand.

Measured by every possible stand-
ard—by the volume of exports and
imports, by the expansion of domestic
trade, by the condition of labor,
by the rate of wages, by the size of
bank deposits and clearinghouse re-
turns, by the balance of trade or by
the amount of gold in the country, by
any and all of these standards, this
country today is enjoying prosperity
such as no other country has ever en-
joyed before.

Wilson the Man.

Americanism and peace, prepared-
ness and prosperity—these are the
issues upon which the Democratic
party stands, and the heart of Dem-
ocracy swells with pride that is more
than a pride of party, as it hails the
man, who has asserted this Ameri-
canism, assured this peace, advocated
this preparedness and produced this
prosperity.

The man who is president of the
United States today has measured up
to the best traditions of a great office.
And when the history of these days
comes to be written, and the chil-
dren of tomorrow read their nation's
story, when time shall have dispelled
all misconception, and the years shall
have rendered their impartial verdict,
one name will shine in golden splen-
dor upon the page that is blackened
with the tale of Europe's war, one
name will represent the triumph of
American principles over the hosts
of darkness and of death.

That name will be the name of
Woodrow Wilson, president and presi-
dent to be.

Bowell Complaints in India.

In a lecture at one of the Des
Moines, Iowa, churches a missionary
from India told of going into the in-
terior of India, where he was taken
sick, that he had a bottle of Cham-
berlain's Colic, Cholera and Diar-
rhoea Remedy with him and believ-
ed that it saved his life. This reme-
dy is used successfully in India both
as a preventative and cure for chol-
era. You may know from this that
it can be depended upon for the mild-
er forms of bowel complaint that oc-
cur in this country. Obtainable ev-
erywhere. Advt.
